```
<select
    :id="formControl.id"
    v-model="formControl.value"
    :name="formControl.name"
    class="form-control"
  >
    <option
      v-for="opt in formControl.options"
      :key="opt.text"
      :value="opt.value"
      :disabled="opt.disabled"
    >
      {{ opt.text }}
    </option>
  </select>
```

<input-select />

Props

Events

{ V }

<input-select />

Props

- Control

Events

- @change
- @blur
- @focus

```
<select
   :id="formControl.id"
   v-model="formControl.value"
   :name="formControl.name"
   class="form-control"
 >
   <option
     v-for="opt in formControl.options"
     :key="opt.text"
     :value="opt.value"
     :disabled="opt.disabled"
   >
     {{ opt.text }}
   </option>
 </select>
```

Wait... how do I submit the form
if there is no button?
