Quick Start →

Magical 🧙‍♂️✨

Generating forms quickly from a simple data object, a JSON string or the response from an ajax call using only a DynamicForm component, yup, that easily.

Customizable 🧑‍🎨👩‍🎨

Vue Dynamic Forms is UI agnostic, plain style ready for you to customize, or you can import one of the default themes

Built-in Validation 🦾

No need to add more dependencies for your input validations, Vue Dynamic Forms comes with a pretty solid built-in validations to make your life and your project easier.

Flexible 🏹

This library is aimed to give an awesome developing experience, you need a really custom input type
